

Maxeon Solar Technologies Supports Inflation Reduction Act, Urges Swift Passage Through Congress

SINGAPORE, July 29, 2022 /PRNewswire/ -- Maxeon Solar Technologies, Ltd. (NASDAQ: MAXN), a global leader in solar innovation and channels, today expressed their strong support for the recently introduced Inflation Reduction Act of 2022 in the United States Senate. The legislation as currently proposed calls for incentive levels that would help support Maxeon's continued investment in the U.S., including the construction of a 3-gigawatt solar manufacturing facility on U.S. soil.

Jeff Waters, Chief Executive Officer of Maxeon Solar Technologies, said, "Maxeon strongly supports the recently proposed Inflation Reduction Act of 2022 and urges Congress to quickly enact this legislation. As a solar industry technology leader with a legacy of over 35 years' experience in the U.S. market, Maxeon believes the proposed measures will catalyze significant investment in U.S. solar manufacturing, facilitate the creation of a stable domestic solar supply chain, and allow the U.S. to aggressively pursue the decarbonization of its economy with less reliance on imported solar products."

Waters concluded, "Maxeon is well positioned and willing to help achieve these objectives. In April of last year, we announced our intention to construct a 3-gigawatt manufacturing facility in the U.S. pending the implementation of appropriate incentives and the successful application for a DOE loan. Since that time, we have conducted an extensive site selection process, completed preliminary engineering studies for the factory, and submitted a Part 2 application to DOE's Loan Program Office. We are ready to move forward with this project quickly and strongly encourage Congress to pass the Inflation Reduction Act as soon as possible in its current form."

About Maxeon Solar Technologies

Maxeon Solar Technologies (NASDAQ:MAXN) is Powering Positive Change™. Headquartered in Singapore, Maxeon designs and manufactures Maxeon® and SunPower® brand solar panels, and has sales operations in more than 100 countries, operating under the SunPower brand in certain countries outside the United States. The Company is a leader in solar innovation with access to over 1,000 patents and two best-in-class solar panel product lines. Maxeon products span the global rooftop and solar power plant markets through a network of more than 1,700 trusted partners and distributors. A pioneer in sustainable solar manufacturing, Maxeon leverages a +35-year history in the solar industry and numerous awards for its technology.
