

Maxeon Releases 2023 Sustainability Report, Highlighting its Continued Progress as One of the World's Most Sustainable Companies

SINGAPORE, July 9, 2024 /PRNewswire/ -- Maxeon Solar Technologies, Ltd. (NASDAQ: MAXN), a global leader in solar innovation and channels, today announced the publication of its Sustainability Report for 2023, as well as its annual Modern Slavery Statement, both of which highlight the Company's continuing accomplishments in Powering Positive Change.

Maxeon's fourth annual Sustainability Report outlines the company's comprehensive approach, commitment, and progress in sustainable business operations. 2023 brought Maxeon well-deserved recognition for its industry leadership, including the APEX Award for Most Sustainable Business awarded by the United Nations Global Compact Singapore. Maxeon also rose to the Top 50 Most Sustainable Companies in the world as ranked by Corporate Knights. In addition, MSCI continues to rate Maxeon as AA and ISS rates the Company as Prime in their respective sustainability indices.

"As more countries and corporations pledge to achieve net-zero emissions, renewable energy will play a pivotal role in enabling this transition," said Bill Mulligan, Maxeon's Chief Executive Officer. "Maxeon is delighted to be a key player in the race to achieving net-zero by supporting the growing demand for solar energy, coupled with our exceptional sustainability and governance best practices."

2023 was a year of change at Maxeon that included significant innovation in its solar energy solutions, and the Sustainability Report details how the Company's achievements are focused on shaping a better future for our planet and for Maxeon's stakeholders.

Additional highlights from the 2023 Sustainability Report include:

- Launching a circular economy partnership with Nanyang Technological University in Singapore to improve the recycling process for solar panels
- The introduction of its SunPower home energy system empowering consumers to optimize their home energy consumption and their use of self-generated clean energy
- The launch of the Maxeon 7 solar panel with over 24% efficiency and superior shade tolerance
- LEED Gold Certification for Maxeon's Singapore headquarters
- Establishing Maxeon Impact Areas in Gender Equity, Sustainability and Mental Wellness
- A 25% improvement in customer NPS scores, reflecting exceptional customer focus

Maxeon's latest Modern Slavery Statement provides further transparency and goes in depth examining the Company's human rights protections throughout its supply chain, including detailed insight into its traceability measures for key raw materials.

"I am proud to continue Maxeon's tradition of leading the solar industry by issuing robust, comprehensive and transparent reporting on our performance," said Lindsey Wiedmann, Chief Legal & Sustainability Officer at Maxeon. "Our values include Holding Ourselves to a Higher Standard, and in doing so, we are raising the bar for the industry and promoting the importance of corporate action to address climate change and its negative impacts."

The latest edition of the Sustainability Report adheres to the highest international reporting standards of the Global Reporting Initiative (GRI) and the Sustainability Accounting Standards Board (SASB) as well as the UN Global Compact and the Singapore Exchange Sustainability Reporting requirement. Maxeon's Modern Slavery Statement is aligned to Australia, California, and United Kingdom standards.
